## Boost Participation & Save Time

Community members are often too busy to attend public meetings, speak during public comment periods, and stay involved in the governing process. Instead, they choose other avenues to voice their opinions – like social media – making it difficult for agencies to collect and manage feedback.

eComment is an online tool that makes participation easy and convenient for residents and city staff. Residents can review agenda item details and indicate their position on an item – from any device. The result? Clerks save time while elected members get a better view of public sentiment.

## With eComment You Can...

- ✓ **Encourage resident participation** by letting busy residents provide online feedback.
- ✓ **Bring clarity to public opinion** with reporting that shows how residents feel about specific initiatives.
- ✓ **Save clerks' time** with a solution that consolidates public comments then delivers them to elected officials.
- ✓ **Shape the conversation** by providing a single, official place for constituents to comment on issues.
